DETAILED ACTION

RESPONSE TO AMENDMENT

1. This action is in response to the amendment received on August 21, 2002.

Claims 8-17 are pending. Response to attorney's arguments are in bold citations below and include *inherent* components in standard communications systems such as protocol handshake, identifiers, data streams with data stored in buffers, "bookend" frames with interrupts from the microprocessor and a command signal or 0xFFF before an interrupt-sensitive time period.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 8-17 (all preliminary amendments that cancel claims 1-7 in PCT /DE97/00995) are rejected under 35 U.S.C. 102(b) as being anticipated by Chaum et al. (US 5,485,520).
